

I

T

P

G

O

should've  
been a  
performance

3d  
scannnn

stalking as  
an art  
form

wait -  
where's  
the rest of  
it?

already on  
the blogs

max msp  
jitter

gesturessss

but why?

best use of  
of!

30fps

gratuitous  
use of  
google  
maps

kinectv2  
as a  
button.

I. T. P.!!!

i can't  
break it

first  
projection  
mapping  
project

sound art  
piece you  
can't hear  
properly

so weird.

wait where  
are the  
controls?

rgb-d wait i  
mean  
depthkit

haptic  
feeeeed  
back

best  
tutorial!

60fps

overly  
complicated  
indicator  
light

needs more  
speakers

oh god -  
cable  
management
