scannnn

sound art
piece you
can't hear
properly

that dude
writes for
vice.

kyle
already did
it

machine
learning!

computer
human
interaction

done in the
1970's

complex
tech demo!

insightful
social
intervention
piece

wait how
did you
make this?

wait the
chair is the
controller?

kinectv2
as a
button.

I. T. P.!!!

webgl

leap motion

that project

weird
oculus rift
game

done in the
1960's

kind of
disgusting
bio art

im in vr
and walking
around!

oh god -
cable
management

best use of
of!

post
snowden
art

stalking as
an art
form

shadows
