where are  
you in this  
piece?

google  
cardboard  
makes me  
feel drunk.

very  
intricate

soon to be  
ripped off  
by an  
agency

cad-styled  
fashion

60fps

but why?  
god why?

machine  
learning!

a failed  
leap motion  
game

should've  
been a  
performance

that dude  
writes for  
vice.

just needs  
an angel  
investor

I. T. P.!!!

i can't  
break it

o.m.g.  
unreal

projection  
mapped 3d  
printed

mapping  
project

overly  
complicated  
indicator  
light

weird and i  
love it

borderline  
illegal art

gesturessss

dope  
shader  
brah

rgb-d wait i  
mean  
depthkit

gratuitous  
use of  
google  
maps
