uncomfortable  
fashion

my first 3d  
printing  
project

wait the  
chair is the  
controller?

weird and i  
love it

didn't make  
it run  
forever

oh god -  
cable  
management

should've  
been a  
performance

tech  
integrated  
fashion

60fps

shadows

projection  
mapped 3d  
printed  
sculpture

just needs  
an angel  
investor

I. T. P.!!!

omg i get  
to ride a  
\_\_\_\_\_ in vr

insightful  
social  
intervention  
piece

3d  
scannnn

i can see  
your  
menubar

best use of  
processing!

that project

uncomfortably  
personal  
story

overly  
complicated  
indicator  
light

done in the  
1970's

kinectv2  
running on  
a mac

great idea  
but running  
at 10fps

that dude  
writes for  
vice.
